Genoua, December 27.

THIS week arrived here a Genouese in 12 days from *Alicant*, the Master whereof informs us, that War hath been proclaimed there against *France*: And that the Officers of Justice use great diligence and severity to discover the French Effects. By a Bark we have advice, that an Algerine Man of War hath been forced ashoar by bad Weather on the Coast of *Naples*, and that the Moores, who were about 200, were all taken. The Algerines have at this time 9 or 10 Men of War at Sea, and three or four Barks.

Hamburgh. Jan. 1. Levies are making in *Holstein* and all the Parts hereabouts for the service of the King of *Denmark*; who we are told will have an Army of 30000 men in the Field this next Summer, and a Fleet of 40 Men of War at Sea. The Treaty of Alliance between the King of *Denmark* and the Crown of *France* is renewed, and there are Letters from *Copenhagen* which say that an Express was arrived there from *Paris* with the Ratifications. From *Berlin* they write, that the Heer *d'Amerongen*, Envoy Extraordinary from the States General of the *United Provinces*; and the Heer *de Groot*, who is there in the same quality from the Dukes of *Brunenburg*, have frequent Conferences with his Electoral Highness's Ministers upon the present state of Affairs. Our Letters from *Warsaw* tell us, that the King of *Poland*'s continuing so long in *Hungary*, gave occasion to people to believe he will Winter there, and that a Negotiation is still kept up with the Hungarians by his Majesty's Forces, who seems very desirous to fix the affairs of *Hungary* re-established upon such a foot, that the whole Forces of that Kingdom may be united against the Turks, in order whereunto we are told he has proposed several points to the Emperor, with his opinion, That if his Imperial Majesty should please to grant them, they would be as Means to bring back the Hungarians which are still in Arms to the duty they owe him.

Vienna, Decemb. 27. We have Letters from *Cracow* which give an account, That the Sieur *Cracowski*, who commands the Polish Troops in the *Ukrain*, had been engaged with 20000 Turks and Tartars not far from *Caminiec*, and had defeated them; and that upon the news of it, *Walachia* had cast off the Turkish Yoke, and had demanded the protection of the King of *Poland*, in whose name the said Sieur *Cracowski* had established there a new Hospodar or Prince: That *Caminiec* will be very closely blockt up this Winter by the Poles and the Cossacks, in order whereunto they have already secured themselves of the most considerable Posts near that place: and that the Cossacks had made an Incursion into the little *Tartary*, where they had made a great desolation with Fire and Sword, sparing neither Sex nor Age. The last Letters from the King of *Poland*'s Camp, near *Esperies*, are dated the 6th Instant, which tell us, That his Majesty was preparing for his return to *Cracow*, and that the Queen would meet him the 12th at a place called *Cabouckà*. From the upper *Hungary* they write, that the Imperialists have taken the Fortress of *Zoinocke*, situate on the River *Tibisc*: and that the Turks are drawing together near *Buda*.

Lintz, December 28. We have advice by an Express arrived from *Hungary*, that the King of *Poland* having quartered the Troops of *Lithuania* along the *Tibisc*, is marched with the rest of his Forces towards *Cracow*. The Duke of *Lorrain* having received an account that the Bassa of *Buda* does assemble a considerable body of men, has sent orders to the Imperial Regiments that are quartered in the Hereditary Countries, to draw 100 Horse out of each Regiment, and to cause them to march with all diligence for *Hungary*. And at the same time we understand that General *Rabata* has reinforced the Garison of *Gran*.

Francfort, January 5. Our advices from *Hungary* tell us, that the King of *Poland* is endeavouring to withdraw the Hungarians from Count *Teckeley*, and that in order thereunto he has written to the Emperor to perswade him to restore the Confiscated Estates, &c. And from *Lintz* they write, that it was said the Baron *d'Abele*, whom his Imperial Majesty is sending to *Presbourg*, had orders to declare to the Hungarians that his Imperial Majesty is willing that things be restored pursuant to the Diploma or Declaration in 1647. and that he will grant them a general Oblivion for what is past. The Poles not being secure in their Quarters in *Hungary*, but in daily fear of being fallen upon by the Turks, are for the most part gone to Winter in *Poland*: The Rebels attacked their Rear in their march, and several were killed. General *Dunewaldt* has by his Bombs forced the City of *Leutschau* to put out the Hungarian Garison, and to receive the Emperor's Troops. Prince *Waldeck* is appointed by the Emperor to assist as his Plenipotentiary at the Great Conference that is going to be held at the *Hague*. We have advice that the Marquis *de Bethune* is to return to the Court of *Poland*, as Ambassador from his Most Christian Majesty.

Cologne, January 7. It is said that an Alliance of Mutual Defence and Assistance is treating between our Elector, the King of *Denmark*, and the Elector of *Brandenburg*. The first Infant parted from hence the Prince *de Mourbach*, whom his Electoral Highness sends in quality of his Envoy Extraordinary to the Elector of *Brandenburg*. From *Ratisbonne* we are told that the Electoral Colledge do persist in their opinion that a Peace or Truce ought to be established with the Crown of *France* upon the Conditions proposed by his Most Christian Majesty.

Hague, January 11. The States of *Holland* have not yet taken a final resolution concerning the new Levy of 16000 men; and it's believed nothing will be done in it. On the 20th Instant a great Conference will be held here of the Ministers of the Allies, at which Prince *Waldeck* will assist on the part of the Emperor. The Heer *Van Haren* will part from hence very shortly on his
